

## CUDA KNIVES

With lightning quickness and virtually no effort, these quick-open knives are ready for action. CUDA knives have received numerous honors by the industry's leading publications. Utilizing a unique opening system, each CUDA is quick to the draw. By simply pushing on the thumb disk the CUDA blade slides out effortlessly to the ready. A liner lock automatically employs to keep the blade open and secure. This is truly a one hand knife.

CUDA Quik-Action Spear Blade

CUDA Quik-Action Tanto  
Blade(serrated)  
CUDA2S

CUDA Quik-Action Tanto Blade  
(left-handed, serrated) CUD2SL

- 5" length closed (9" open)
- 3-31/32" spear blade
- .16" blade thickness
- ATS-34 hollow ground, bead blast finish blade
- Bead-blasted fine weave
- G-10 scales
- Dual stainless steel liners
- Stainless steel post construction
- Black stainless steel pocket clip
- Patent pending

CUDA Knives CUDA Jr. Quik-Action Spear Blade CUD21

CUDA Jr. Quik-Action Spear Blade (serrated) CUS21S

CUDA Jr. Quik-Action Spear Blade (left-handed, serrated) CU21SL

CUDA Jr. Quik-Action Tanto Blade CUD22 CUDA Jr. Quik-Action Tanto Blade (serrated)

CUD22S

- 4-1/8" length closed (7" open)
- 2-31/32" spear blade
- .16" blade thickness
- ATS-34 hollow ground, bead blast finish blade o Bead-blasted fine weave G-10 scales
- Dual stainless steel liners
- Stainless steel post construction
- Black stainless steel pocket clip
- Patent pending

CUDA Quik-Action Rescue Knife  
CUDA3

- 5" length closed (8-1/2" open)
- 3-41/64" rescue blade, with full serration
- .16" blade thickness
- ATS-34 hollow ground, satin finish blade
- Bead-blasted fine weave G-10 scales
- Dual stainless steel liners
- Stainless steel post construction
- Black stainless steel pocket clip
- Patent pending

CUDA Quik-Action Spear Blade  
CU1T

CUDA Quik-Action Spear Blade  
(serrated) CU1ST

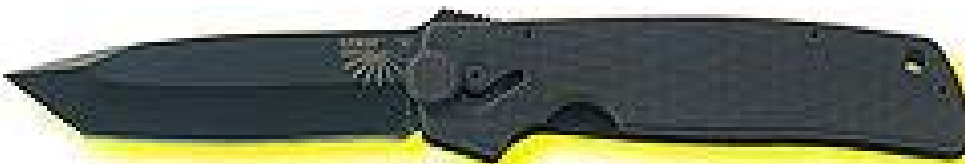

CUDA Quik-Action Tanto  
Blade CU2T

CUDA Quik-Action Tanto  
Blade(serrated) CU2ST

- 5" length closed (9" open)
- 3-31/32" spear blade
- .16" blade thickness
- ATS-34 hollow ground Titanium Nitride coated blades, Quik-Action button, liners, screws and posts
- Bead-blasted fine weave G-10 scales
- Dual stainless steel liners
- Stainless steel post construction
- Black stainless steel pocket clip
- Patent pending

CUDA Quik-Action Claw  
CUDA4S

- 5" length closed (8-1/2" open)
- 3-5/8" hawkbill blade, with full serration
- .16" blade thickness
- ATS-34 hollow ground, bead blast finish blade
- Bead-blasted fine weave G-10 scales
- Dual stainless steel liners
- Stainless steel post construction
- Black stainless steel pocket clip
- Patent pending

CUDA Cyber CY1

- 4-1/8" length closed (7" open)
- 3" drop point blade
- .16" blade thickness
- ATS-34 hollow ground CUDA sliik matte finish
- Thumb stud opener
- Dual stainless steel liners
- High-impact circuit board scales
